

1st April 2019

2nd International Symposium on Corrosion and Fouling

Two Natural Curses for a Ship's Hull

BIOFOWLING:
SETTLEMENT OF
BIRDS ON A
SURFACE,
GENERALLY
HAVING
UNDESIRABLE
CONSEQUENCES

Courtesy of Eugene Georgiades

Objectives

- Insights in maritime corrosion with attention to microbially induced corrosion
- Extending the lifetime of coating systems
- What is coating-friendly design?
- Innovative survey methods
- Biofouling and the marine ecosystem
- Influence of biofouling on ship performance
- New antifouling coatings and alternative approaches

When

- 1st April 2019

Who

- R. Melchers (Australia)
- C. Bressy (France)
- M. Atlar (UK)
- + 10 other speakers

Fee

- 150€ < 1/2/2019 > 200€

Where

Antwerp Maritime Academy
Noordkasteel Oost 6
2030 Antwerp Belgium
